Bio:

My Dark Fate delivers a powerful take on modern groove metal, blending crushing seven-string riffs with a dynamic dual-vocal approach: Agressive growls from guitarist Stefan Geir are balanced by clean melodic hooks from bassist Marina Su. The tight, driving rhythms delivered by Christian Federer on the drumset keep the sound heavy.

The project was founded 2019 by guitarist and main songwriter Andreas Maierhofer, best known for his work in the melodic death metal band **Lost Dreams**. With My Dark Fate, he continues to channel his decades of experience into a darker, heavier vision.

The band released their debut album, **No Prophecy**, in December 2022 (with former singer Brigitte).

In 2025, the band underwent a reboot, with Marina (vocals, bass) and Stefan (vocals, guitar) officially joining the lineup.

2025 marked the beginning of a bold new chapter for My Dark Fate.
